

DAY 17

End-to-End Sprint Simulation

Learning Objectives:

- Apply all Scrum ceremonies back-to-back in a single simulated sprint
- Practice moving from backlog grooming to planning to daily standups to review to retrospective
- Identify where real PM effort is needed vs where templates help
- Understand the continuous nature of Agile delivery
- **YouTube Search Terms:**
 - "Full sprint simulation agile"
 - "Running a complete agile sprint"
 - "Scrum simulation walkthrough"
- **Recommended Channels:**
 - Atlassian
 - Agile Alliance
 - PM Majik

Tasks:

- Run a complete simulated Sprint 2 for the Expense Tracker project from start to finish — start with backlog grooming (refine 10 backlog items), then Sprint Planning (select stories, write sprint goal), then 3 daily standup logs, then Sprint Review (list what was demo'd and stakeholder feedback received), then Retrospective using the 4Ls format
- Update your Jira board throughout the simulation — move stories through the workflow (To Do → In Progress → In Review → Done), log a blocker, resolve the blocker, and close the sprint
- Write a Sprint 2 summary document covering sprint goal, what was completed, what was not completed and why, velocity in story points, key decisions made, and carry-over items to Sprint 3

Deliverable

- Complete Sprint 2 simulation document covering all 5 ceremonies
- Jira board screenshots showing sprint start, mid-sprint, and sprint end
- Sprint 2 summary document

Project: Expense Tracker Application

1. Product Backlog Grooming

The Product Owner, Scrum Master, and Development Team reviewed and refined the backlog before Sprint Planning.

ID	User Story	Priority	Story Points	Status
US-11	Add Expense Categories	High	5	Refined
US-12	Monthly Expense Report	High	8	Refined
US-13	Search Expenses	High	5	Refined
US-14	Filter Expenses by Date	Medium	3	Refined
US-15	Edit Expense	High	5	Refined
US-16	Delete Expense	Medium	3	Refined
US-17	Dashboard Summary	High	8	Refined
US-18	Budget Alert	Medium	8	Refined
US-19	Export Report as PDF	Low	13	Refined
US-20	Dark Mode	Low	5	Refined

Grooming Notes

- Dashboard Summary requires additional UI work.
- The Export Report is too large for this sprint.
- Budget Alert depends on notification support.
- Dark Mode remains a low priority.

Sprint Planning

Sprint Goal : Deliver expense management and reporting features that help users manage and review their expenses more efficiently.

Sprint Backlog

US-11: Add Expense Categories (5 SP)

User Story : As a user, I want to assign categories to my expenses so that I can organize my spending.

Tasks

- Add category field
- Update expense form
- Test category selection

US-13: Search Expenses (5 SP)

User Story : As a user, I want to search my expenses so that I can quickly find a specific transaction

Tasks

- Create search bar
- Implement search functionality
- Verify search results

US-14: Filter Expenses by Date (3 SP)

User Story : As a user, I want to filter expenses by date so that I can view expenses for a selected period.

Tasks

- Add date filter
- Apply filtering logic
- Test filter results

US-15: Edit Expense (5 SP)

User Story : As a user, I want to edit an existing expense so that I can correct any mistakes.

Tasks

- Enable edit option
- Update expense details
- Save changes

US-16: Delete Expense (3 SP)

User Story : As a user, I want to delete an expense so that I can remove incorrect or unwanted records.

Tasks

- Add delete button
- Show confirmation message
- Remove expense

US-17: Dashboard Summary (13 SP)

User Story : As a user, I want to view a dashboard summary so that I can understand my spending at a glance.

Tasks

- Display total expenses
- Show category summary
- Test dashboard

Total Story Points : 34 Story Points

Daily Standup Logs

Daily Standup 1

Yesterday

- Sprint Planning completed.
- Category feature development started.

Today

- Complete Categories.
- Begin Search feature.

Blockers : None.

Daily Standup 2

Yesterday

- Categories completed.
- Search feature nearly complete.

Today

- Finish Search.
- Start Dashboard Summary.

Blocker : Dashboard chart library was incompatible with the current project version.

Resolution Plan

Upgrade the library before continuing development.

Daily Standup 3

Yesterday

- Dashboard issue resolved.
- Search completed.

Today

- Finish Edit and Delete features.
- Perform testing and bug fixes.

Blockers : None.Sprint remains on schedule.

Jira Workflow Simulation

Sprint Start

☐	ETA Sprint 2	27 Jun – 29 Jun (15 work items)	0	34	0	Complete sprint	...

	ETA-9	Delete Expense	EXPENSE MANAGEME...	DONE ✓	-	=	

Sprint successfully closed.

Sprint Review

Features Demonstrated

- Add Expense Categories
- Search Expenses
- Filter Expenses by Date
- Edit Expense
- Delete Expense
- Dashboard Summary

Stakeholder Feedback

Positive Feedback

- Search is quick and easy to use.
- Dashboard gives a good spending overview.
- Editing expenses is simple.

Suggestions

- Add Export Report feature.
- Add Budget Alerts.
- Improve dashboard charts.

Sprint Retrospective (4Ls)

Liked

- Good collaboration among team members.
- Daily standups kept everyone informed.
- Dashboard feature added significant value.

Learned

- Check third-party libraries before starting development.
- Better estimation improves sprint planning.

Lacked

- More automated testing.
- Earlier UI review.

Longed For

- CI/CD pipeline.
 - Automated deployment.
 - Budget notification feature.
-

Sprint 2 Summary

Sprint Goal

Deliver features that improve expense management and provide users with better visibility into their spending.

Completed Stories

- US-11: Add Expense Categories
- US-13: Search Expenses
- US-14: Filter Expenses by Date

- US-15: Edit Expense
- US-16: Delete Expense
- US-17: Dashboard Summary

Stories Not Completed

Story	Reason
Budget Alert	Deferred due to lower priority
Export Report as PDF	Large scope
Dark Mode	Planned for a future sprint

Sprint Velocity

- **Committed:** 34 Story Points
- **Completed:** 34 Story Points

Sprint Velocity: 34 Story Points

Key Decisions

- Updated the chart library to resolve compatibility issues.
- Deferred Export Report and Budget Alert to Sprint 3.
- Completed all committed Sprint 2 stories.

Carry-over Items for Sprint 3

- Budget Alert
- Export Report as PDF
- Dark Mode
- Excel Export
- Enhanced Dashboard Charts
